

Abuntex Administration Course

Course Duration: 1 Days

This interactive one day course is designed to enable delegates to understand and use the administrative functionality of the Abuntex estimating system. Abuntex is constantly evolving and this course allows you to take a “hands on” approach to the administrative functions and gain an understanding of how to use these functions to its full potential. This course is ideal for all **Administrative** staff and existing Abuntex users that needs to do **Final Costing, Networking and Additionals**.

Course Objectives:

- Learn how to do the Final Costing on the Abuntex system.
- Understand the Graphics within the system in order for you to do additionals.
- Learn how to Network an assessment
- All relevant Administration functions

Course Format:

- Navigation of the Abuntex system
- 3D Graphics
- AudaFile
- How to access and understand Reports
- AudaWatch
- AudaParts / Parts Portal
- Re- assigning assessments
- Phantom Calculation
- AudaMail
- AudaImage
- Version Compare
- Networking
- Final Costing
- Billing Rules
- Exporting Assessments
- AudaUpdate

Please note: This course will give you Abuntex Administrative knowledge only, this course will not qualify you to run estimates on Abuntex. You must attend an Introductory course should you wish to estimate on the Abuntex.

NB: You MUST have Windows experience and knowledge.
